ABOUT ——— *ME*

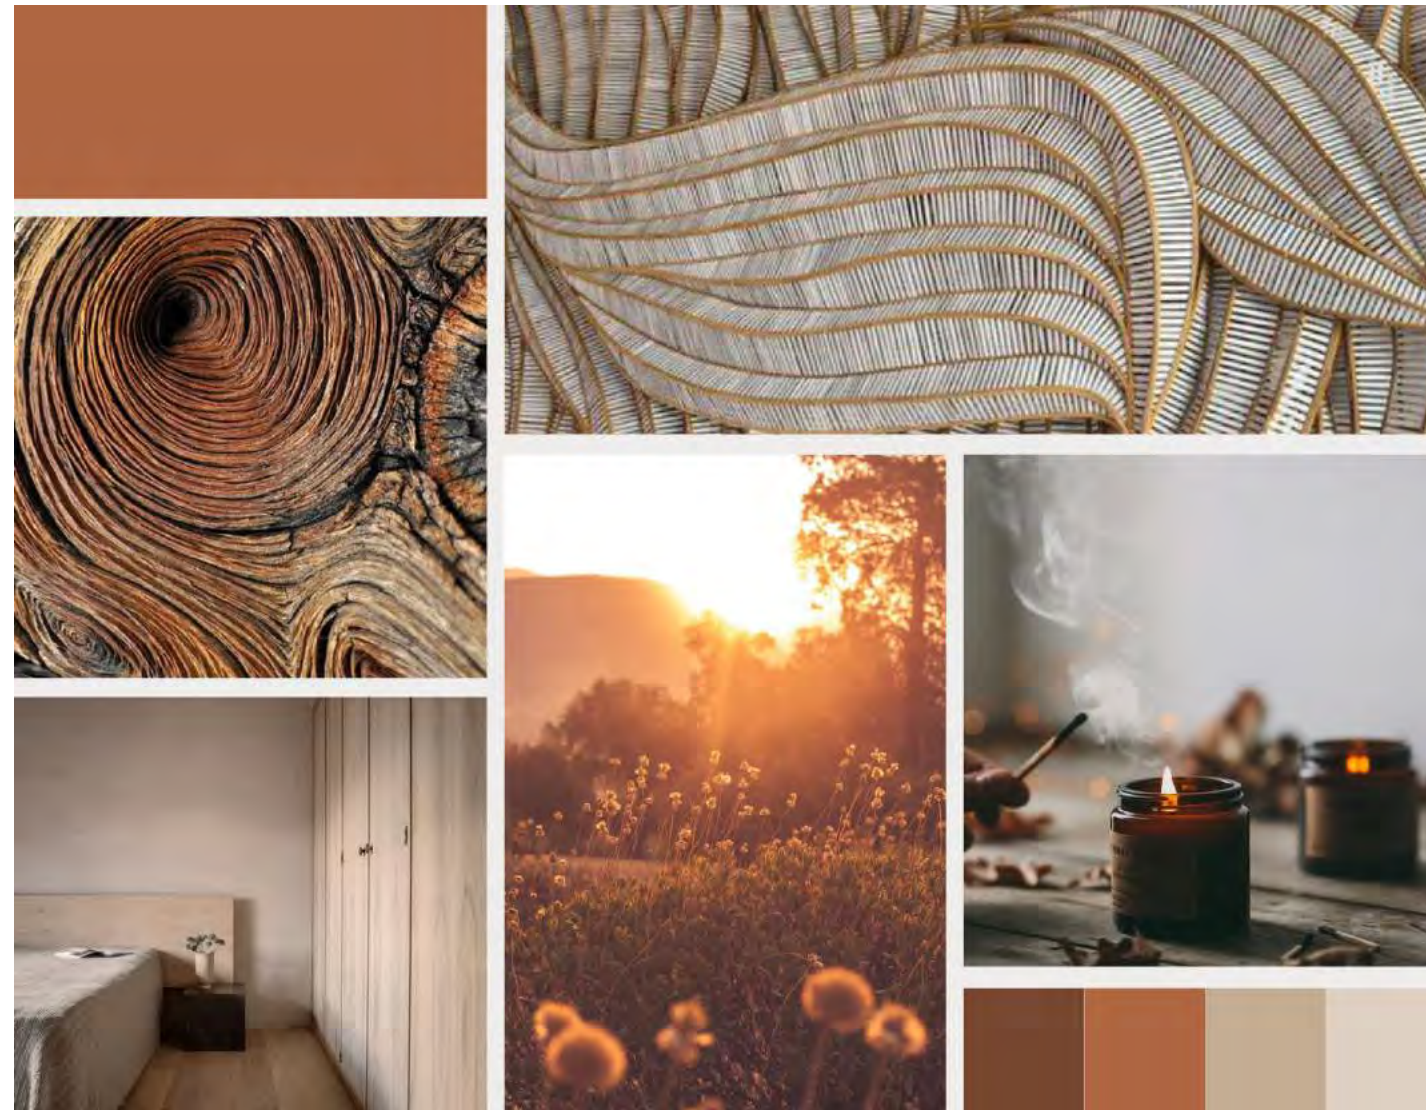

After numerous working holidays abroad and years working in a variety of industries, I completed the Interior Design Fundamentals certificate program with distinction from BCIT in March 2021.

Collaborating with other designers, I find inspiration from nature, literature, film, art, music, and fashion and strive to create minimal modern+contemporary designs that incorporate a sense of rustic warmth with character of traditional aesthetics.

I love that design encompasses so many different forms of creativity and really enriches lives through the transformation of spaces. The before and after; the story of design. It's very fulfilling to see all the details come together from conceptualization to reality.
